Product Information Sheet

CANFORD DMX ADAPTER Panel mount, XLR 5-pin to RJ45 female

46-1277 CANFORD DMX ADAPTER Panel mount, XLR 5-pin female to RJ45 female

46-1278 CANFORD DMX ADAPTER Panel mount, XLR 5-pin male to RJ45 female

DESCRIPTION

Five pin male or female XLR to RJ45 socket for DMX applications. Can be panel mounted by offering the connector to the rear of the panel, then securing using M3 screws.

For use where cables have been installed & wall plates or patch bays need fixing at high speed & in a cold, (no soldering), environment.

The depth behind the panel is approx. 41mm, see NC5FD-LX-M3, NC5MD-LX-M3 for connector dimensions.

Note: Any screen present on RJ45 connector is not passed through to XLR
