

Rear Connector Kit - RCK25M

The RCK25M is a self assembly kit for the Tascam DA88 25 way D-sub connector arrangement found on the back of the PST96D25, CPT96D25 and CPJ48D25 model ranges.

The kit consists of 12 line connectors and 12 hoods, one kit is required per patchbay unit installed.

You may also require the Lacing Bar Kit (LBK01) to support the extra weight of rear wire looms.
