See www.teleadapt.com/telecharger for more details

USB Telecharger™
Ideal for laptop users the Telecharger enables you to charge your mobile phone from the USB port of your laptop.
Available in six models to cover most popular mobile phone types.

WARNING!
Teleadapt PowerPlugs do NOT convert voltage.
Incorrect use may result in damage to equipment - or injury.
Check that your equipment is compatible with the local mains voltage.
To check the suitability of your equipment for local use, please go to www.teleadapt.com/guide for details of the mains voltage in your destination country and in the instructions supplied by the manufacturer of your equipment to confirm the maximum voltage (a range of 100V - 240V would be required). Some appliances may require a transformer for use overseas.
Teleadapt does not accept liability for damage to equipment, or injury, due to incorrect use.

Telephone and power sockets vary from country to country. Our TeleDaptors® provide a direct connection for your modem cable to all foreign phone systems that use modular phone plugs. Our PowerPlugs provide a safe physical connection to foreign power sockets.

Keep this guide with your laptop and you need never be unconnected again. For more information see our website at www.teleadapt.com
